

GLOBAL LEADERSHIP SUMMIT:
CREATING A SUSTAINABLE FUTURE

Rome, Naples & Leadership Conference

It's also home to innovative nonprofits and research institutions working toward ecological conservation. Work alongside leaders in sustainable development to explore the innovative efforts happening in Rome and Naples—two old-world civilizations implementing modern practices to address climate change and achieve environmental well-being. Then head to Berlin where you'll come together with other students and teachers to focus on *Creating a Sustainable Future* during a three-day leadership conference.

12 DAY TOUR: JULY 7–18, 2023

Creating a Sustainable Future

Our world is constantly changing, along with our priorities, our plans, and our future. When it comes to building a sustainable future, what we do today matters. The first step? Defining what sustainable living means for you—whether it's promoting peace and justice, protecting education and the environment, or preserving language and culture. Our 2023 Global Leadership Summit will explore the importance of *Creating a Sustainable Future* and the power we have to create long-term change through our daily actions. Sound big? It is. But together, our impact is bigger.
